SureColor SC-F100

Developed for small businesses and start-ups looking to expand their product offering into the promotional goods sector.

This is Epson's first A4 dye sublimation printer. With the footprint of an A4 desktop printer, the SC-F100 is perfect for producing promotional goods and personalised gifts such as mugs, key fobs, phone covers and other small merchandise items, when space is at premium. It also meets the needs of textile producers who want to create bespoke products such as, small bags, aprons, lanyards and cushions.

The complete end-to-end printing solution
The SC-F100 forms part of Epson's complete end-to-end printing solution, which includes inks, driver and paper, all designed to work in harmony. Further peace of mind is assured with a 1 year or 6,000 sheet warranty, whichever comes first. Also, with the Epson Cloud Solution PORT platform enabled, users can keep an eye on print job costs and track usage over time.

Quality output
This compact dye-sublimation printer is designed to expand business opportunities with high-quality printing on a wide range of gifts and promotional goods. The quality and consistency levels are achieved through Epson's PrecisionCore MicroTFP printhead and a look up table (LUT) that's designed for promotional goods and gifts, as well as rigid substrates.

Enhanced productivity
The SC-F100 offers fast turnaround times and a low total cost of ownership (TCO) to small businesses and it requires no specialist knowledge to set up, operate or maintain. The 140ml ink bottles provide a lower cost alternative to cartridge-based inks and enable businesses to keep running for longer, thereby reducing any downtime.

Easy to use
Epson's technologies are simple to use and highly intuitive. The compact SC-F100 features a tilting 2.4-inch screen, Wi-Fi connectivity and front-feeding, easy to change paper functionality (150 sheets).

KEY FEATURES

- **Refillable ink solution**
  140ml ink bottles
- **Compact design**
  With the footprint of an A4 desktop printer
